maxis SOFFIT

คู่มือติดตั้ง

Maxiswood is an innovative wood substitute manufactured with modern technology that does not damage the environment, so you can live as naturally as possible with colors, patterns and properties that resist weather conditions without brittleness, de-lamination or deformation. So, termite and other insect problems are history. Maxiswood is light weight and easy to modify, attach and install with ordinary tools. It's perfect for decorative work, ceilings, walls and battening inside and out. Maxiswood is also flame resistant, factory painted and comes in 9 colors to choose from.

Maxis SOFFIT is designed for easy installation made fast with a systematic approach for hiding screw heads with equipment for finishing 45-degree corners or finishing work on eaves and building walls. Maxis SOFFIT can also be used with ordinary c-line ceiling structures and weighs only 4 kilograms per square meter.

ราคาตั้งกล่อง ไม่รวม ค่าแรงติดตั้ง โครงโครง c-line

maxis soffit 4" (100 mm) QB-002 Price \$42 /SQ.M.

maxis soffit 3" (75 mm) QB-003 Price \$28 /SQ.M.

Sample of wood shades: 9 exterior shades to choose from. The samples are only similar to the real material; real materials might have different shades and patterns.

Remarks:

- All products are made-to-order with minimum orders of 300 meters or 50 m2 & up.
- Cutting lengths = 1.00 to 5.80 meters.
- Prices are subject to change based on material costs & changing exchange rates.
- The above prices do not include VAT, installation, installation equipment, structure, etc.
- The above prices do not include surface coating/anti-UV coating for exterior use.

- Shades may differ with each manufacturing lot, so ordering sufficient quantities is recommended.
- A fee of 25,000 baht per shade applies to customized paint mixes.
- Materials are guaranteed for 3 years under the company's terms.

THE NEW AESTHETIC

maxis Deck, another innovative wood substitute from Maxis Products with properties superior to previous materials. maxis Deck is for exterior flooring, can be installed for use on two sides and comes in attractive, natural-looking colors. It is also low-maintenance, not subject to decay or de-lamination/deformation, while termite, weevil and other insect problems are history. Installation is made fast with a clip system. And installation materials are moisture-resistant. The material itself is 100% waterproof, because it is made from HDPE, which does not absorb water or hold rain.

BALI THATCH

Price: \$41/SQ.M. *

Maxis THATCH is another innovative substitute material from Maxis Products with superior properties to natural products in the past.

- Attractive, natural-looking with architectural charm in local resort style.
- Variety of colors to choose from and flame-resistant (when custom ordered).
- Low maintenance without decay, de-lamination or loosening like natural materials.
- Termite, weevil and other insect problems are no more.
- Light weight, easy, fast installation; no wasteful roof structure.
- Greater flexibility than natural materials to reduce wind damage.
- 100% waterproof, because the material is made from HDPE, which does not absorb water or hold rain.
- 100% recyclable.
- 20-year warranty
