

TUBE PROFILES

MAXISWOOD's Tube Profiles is a direct fixing method whereby battens are either face-fixed or back-fixed directly through the profile to achieve visible fixing and a familiar installation technique. Tube Profiles are also finished on all faces for applications where the batten is visible on both sides of the installation. Tube Profiles are suitable for internal and external design. End cap is made in the same material.

PROFILES

CODE	QB-2547	QB-2565	QB-2590	QB-35100	QB-5075	QB-50100
SIZE	25x47mm	25x65mm	25x90mm	35x100mm	50x75mm	50x100mm

PROFILES

CODE	QB-30200	QB-80180	QB-3030	QB-5050	QB-7575	QB-100100
SIZE	30x200mm	80x180mm	30x30mm	50x50mm	75x75mm	100x100mm

BENEFITS

- >Lightweight & Durable

MAXIS DECK

Maxis Deck can be installed in virtually any design option. The unique profiles offer dimensions in architectural design options whilst offering long term low maintenance durability. Maxis Deck shows the appearance and aesthetics of natural timber without the undesired cracking, splitting or warping characteristics of timber.

Our premium decking can be worked with conventional wood workman techniques. It is natural weathering resistance coupled with a life UV matt coating and will ensure a low maintenance product.

TWO TYPES:

 **Hollow Decking** / Size: 138x23x2800mm

 **Solid Decking** / Size: 140x21x2800mm
